OUR STORY

Baltic Home is a brand originating from Poland, with its roots tracing back to the Baltic coast in the 19th century. For more than a century, we have insisted on using premium wood sourced from sustainable forests, combining the Nordic craftsman spirit passed down through generations with advanced technology to deliver products of enduring quality.

Evolving from a small workshop into a trusted global partner, Baltic Home now provides comprehensive flooring and interior solutions for residential and commercial projects. Guided by our commitment to craftsmanship, sustainability, and innovation, we support our partners in creating timeless spaces with confidence and efficiency.

OUR ADVANTAGES

With ready-to-ship inventory stocked across three warehouses, we guarantee swift and dependable point-to-point delivery to every corner of the nation— ensuring your projects stay on schedule without compromise.

- **West Coast**
CA (San Francisco & Los Angeles)
- **Midwest**
TX (Dallas)
- **East Coast**
NJ (Brunswick)

OUR SERVICE COMMITMENT

At the core of our business philosophy lies an unwavering commitment to putting customers first. Delivering exceptional service is not just our mission — it's our promise to every client we serve.

Proactive Care

Regular follow-ups to anticipate and address your evolving needs.

End-to-End Support

Comprehensive after-sales service with industry-leading warranty policies.

Flexible Solutions

After-hours emergency delivery available when you need it most.

ENGINEERED HARDWOOD FLOORING

Step into a home where beauty meets everyday living. Our engineered hardwood flooring combines real wood surfaces with high density layers, ensuring long-lasting stability against humidity and temperature changes.

Perfect for kitchens, living rooms, or busy family spaces, it provides durable comfort while aging gracefully.

More than just flooring, it forms a reliable foundation for your home, creating spaces where style, warmth, and lasting value come together seamlessly.

NATURALMATTE™ COATING SYSTEM

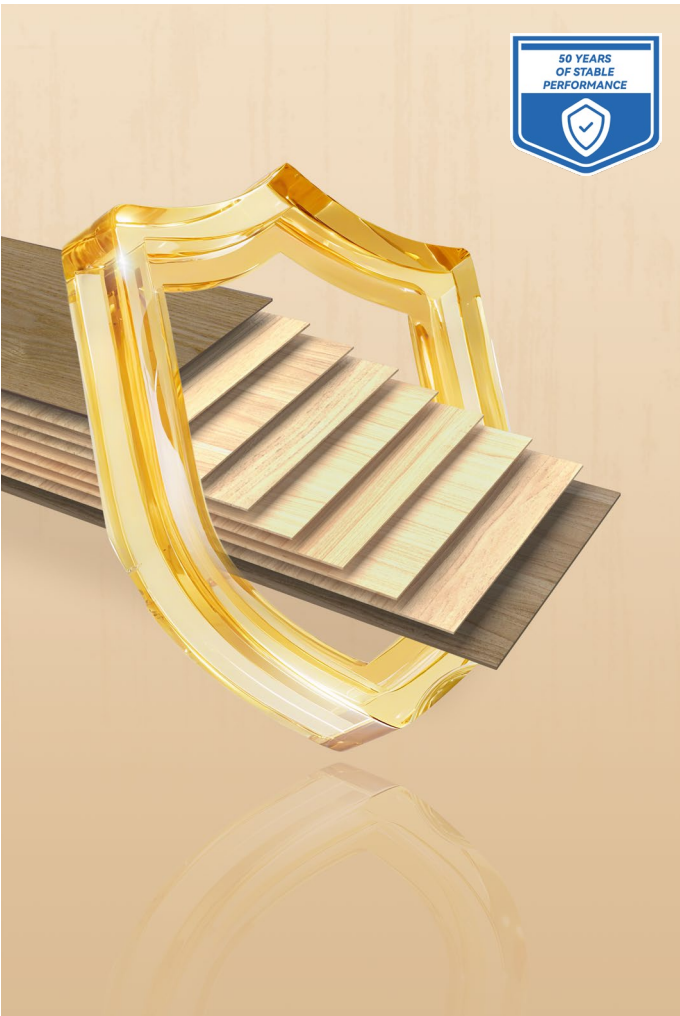

Wood Visuals in Perfect Detail with excellent performance of protection. **2X more durable than traditional UV oil.**

Our proprietary NaturalMatte™ Coating System applies an exceptionally thin yet protective coating.

This innovation preserves and enhances the wood’s authentic character — every knot, grain, and texture appears vividly detailed, richly tactile, and strikingly clear, adding depth and warmth to any space.

ENGINEERED HARDWOOD FLOORING

Performance Features

50 Years of Stable Performance

Our cross-ply structure and scientific processing distribute stress evenly, creating exceptional balance. This engineering is what delivers on the **promise of 50 years of stable performance.**

Material Features

A Warmer, Quieter Feeling of Comfort

The textured wood surface welcomes your feet with natural softness, while the dense core hushes noise for a uniquely comfortable home.

Granite

A woman with long brown hair and glasses is sitting on a dark wood armchair with a light brown leather seat. She is wearing a white t-shirt and striped pants, and is reading a large open book. Her right hand is resting on the light-colored wooden floor. The room is dimly lit with warm light from a lamp in the background. Bookshelves filled with books are visible in the background.

THREE-LAYER HARDWOOD FLOORING

Bring warmth and lasting beauty to kitchens, living rooms, and family spaces with three-layered hardwood flooring.

Each plank features a real wood surface with a stabilizing core, ensuring durability, quietness underfoot, and resistance to seasonal changes.

Hypoallergenic and crafted for comfort, it supports every step of daily life while maintaining its natural charm for years. More than a floor, it becomes a living part of your home, creating harmony, warmth, and timeless elegance in every space.

100% NATURAL WOOD CONSTRUCTION

100% natural oak & spruce layers for authentic wood beauty and lasting stability.

THREE-LAYER HARDWOOD FLOORING

Performance Features

4mV Micro Bevel Edging

2.7mm - 6.6mm oak top layer with spruce core layers for optimal stability and authentic wood character.

Material Features

ECO Surface Coating System

Various colors of ECO oil and stains available, which creates a cozy interior with a palpable touch of comfort and safety.

HYBRID RESILIENT FLOORING

Bring lasting comfort and style to kitchens, bathrooms, basements, and living spaces with Hybrid Resilient Flooring.

Its multi-layer construction resists scratches, dents, and moisture, staying smooth and stable through daily life and changing seasons.

Fully waterproof and easy to maintain, it supports every step of family living while preserving warmth and elegance. Designed for endurance and trusted by professionals, it becomes a reliable foundation that keeps your home beautiful and functional for years to come.

INVISIBLE DEFENSE™ SURFACE TECHNOLOGY

Enjoy realistic wood patterns that stay beautiful for years. Our scratch-resistant surface handles active family life with ease, **while the AC4-rated fire resistance** adds an extra layer of safety and durability to your home.

HYBRID RESILIENT FLOORING

Performance Features

AquaShield™ Core

Powered by our exclusive AquaShield Core technology. It is rigorously tested to withstand complete immersion for **72 hours with no swelling or warping**, guaranteeing lasting beauty and structural integrity.

Material Features

QuietMax™ Pro Underlayment

Our integrated QuietMax™ Pro underlayment designed with 12mm core with 2mm cushioning which provides **up to 25% more noise reducing** and makes every step comfortable.

SPC VINYL FLOORING

From kitchens to basements, SPC Vinyl Flooring brings beauty and durability to every space.

Its stone-composite core resists dents, scratches, and wear from daily life and playful pets. Fully waterproof and easy to clean, it handles spills, moisture, and busy routines effortlessly.

Designed for the rhythm of family living, it provides a reliable foundation that supports every step, every gathering, and every moment, keeping your home comfortable, durable, and inviting.

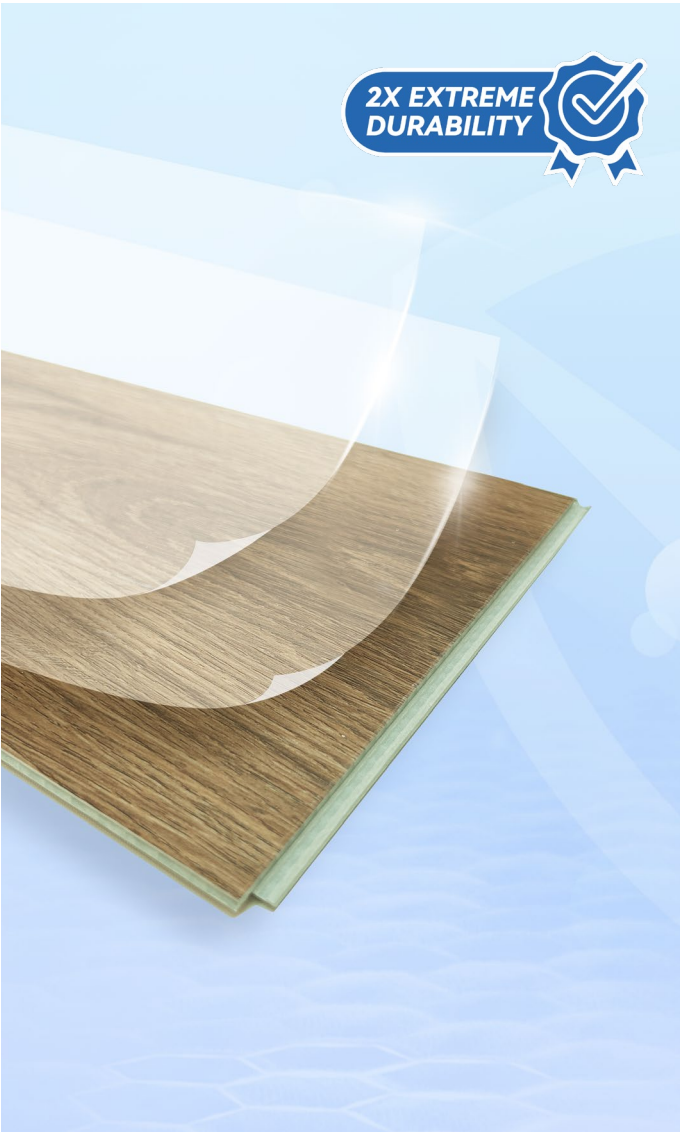

AQUATECH™

Our SPC flooring features the innovative AquaTech™ Moisture Barrier Core, delivering not just 100% waterproof performance, but also **active resistance to moisture vapor transmission**.

This advanced core technology prevents warping, swelling, and damage at the source, ensuring durable integrity in any room — including kitchens, bathrooms, and basements. With AquaTech™, enjoy worry-free installation and lasting protection for your home.

SPC VINYL FLOORING

Performance Features

2X Extreme Durability

Engineered **with an extra durable 22Mil wear layer** that doubles the wear resistance of ordinary floors, this SPC core delivers exceptional resistance to scratches, scuffs, and daily impacts for long-lasting beauty.

Installation Features

Tool-Free Easy Installation

The **innovative click-lock system** allows for a seamless and secure floating floor installation, making your project easier and more achievable than ever.

WPC FLOORING

A refined life begins with balance, where comfort, safety, and style flow naturally through every space.

WPC Flooring embodies this harmony through advanced design. With a waterproof core and a zero formaldehyde formula, it fosters a cleaner, healthier home that resists wear, moisture, and fire.

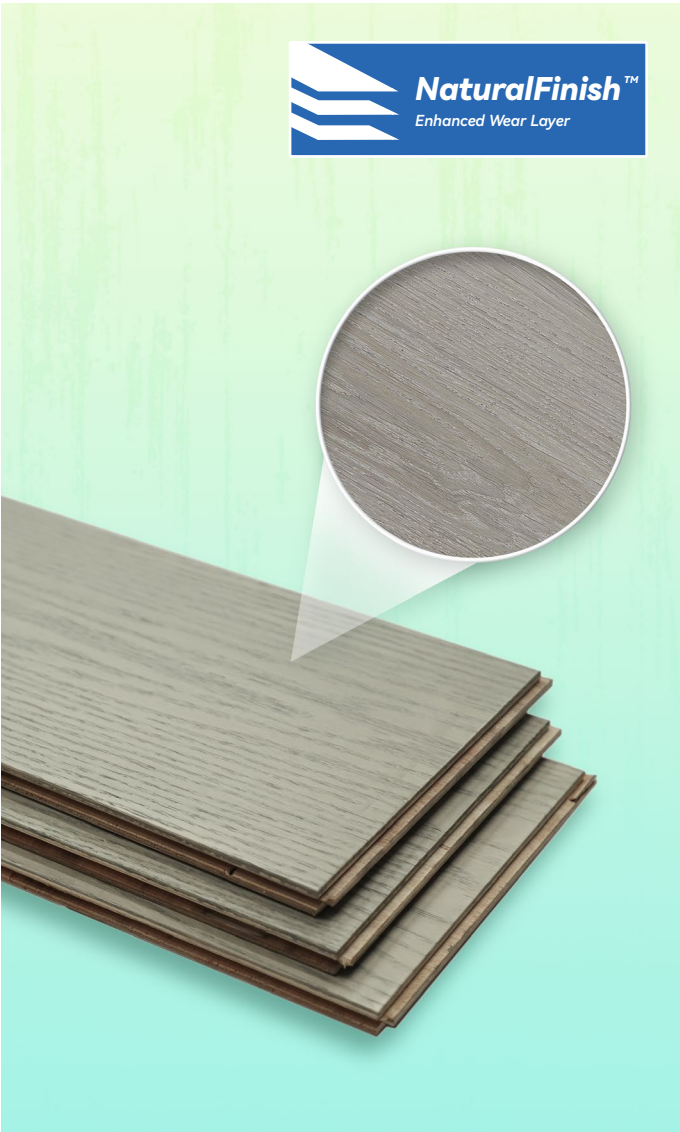

TRICOMFORT™ LAYERED SUPPORT SYSTEM

Experience a walking surface transformed by the TriComfort™ Layered Support System — a triple-layer design combining a plush LVT surface, micro-foam core, and 1.5mm IXPE backing.

This innovation **boosts underfoot elasticity by over 15%**, offering measurable, exceptional comfort and resilient support.

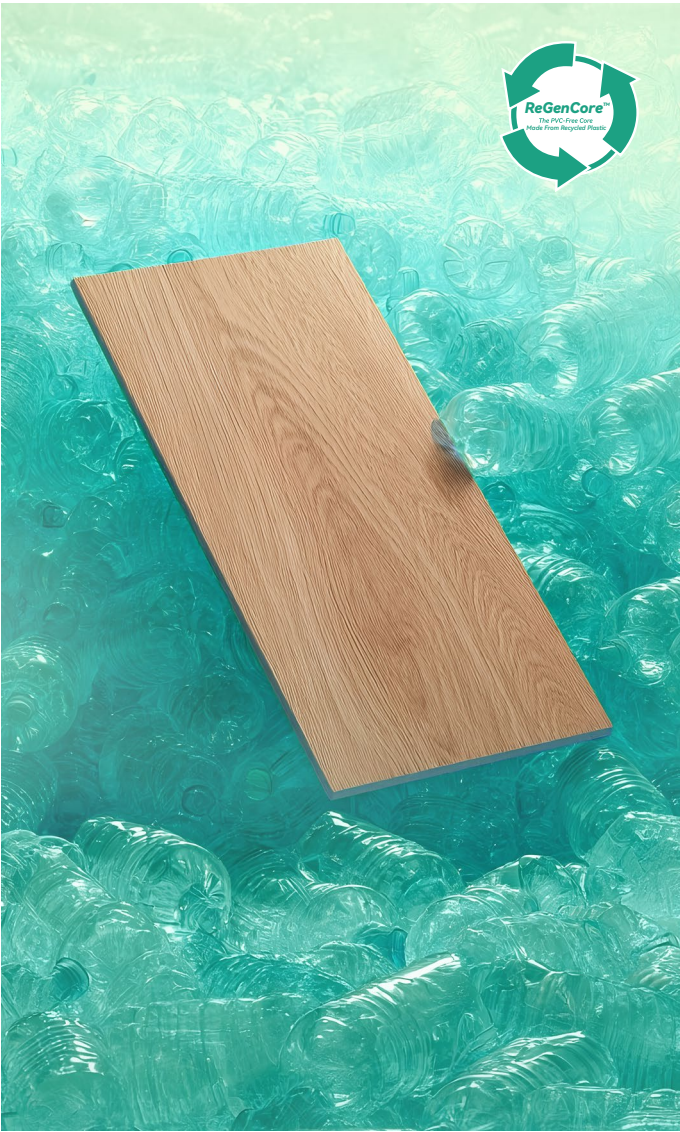

WPC FLOORING

Performance Features

NaturalFinish™ Enhanced Wear Layer

With our NaturalFinish™ Enhanced Wear Layer, every knot, grain, and texture is reproduced with precision, offering a depth and realism that invites a closer look and creates a warm, organic ambiance

Material Features

ReGenCore™

Powered by innovative technology from EcoMat, the ReGenCore™ is a high-performance flooring core made entirely from recycled plastic waste. It provides a durable, PVC-free foundation for your home while actively giving a second life to discarded bottles. This is responsible innovation you can feel good about.

DOOR

Performance Features

QuietMax™ Layered Technology

The use of multi-layer sound insulation materials and seals, can effectively **block 50% more noise** than ordinary doors. Engineered to minimize noise transmission, creating a more peaceful indoor environment.

Framing the first impression and safeguarding private moments, entryways, bedrooms, and living areas gain warmth and style with natural textures.

Crafted with a strong core, precision seals, premium hardware, and an ultra smooth finish, the Painted Wood Door resists moisture, pests, and daily wear while enhancing sound insulation.

Fully customizable colors allow you to reflect your personal style. Supporting quiet, secure, and beautiful home life, it becomes a lasting foundation for tranquil, stylish, and enduring living spaces.

Cost Effective Features

Pre-Painted Finish

Skip the time and expense of painting. Arrives with a flawless, factory-applied finish, ready for immediate installation.

Performance Features

Long-Lasting Durability

Built with robust materials and a protective finish that resists daily wear, ensuring lasting beauty and performance. The composite structure and evenly distributed internal filling material makes the door **30% more stable than ordinary doors** in the market and not easy to be deformed and cracked.

KITCHEN CABINET

Performance Features

SolidTone™ Anti-Fade Technology

Engineered with SolidTone™ Anti-Fade Technology for lasting color stability, our cabinets resist fading and discoloration over time, maintaining their original beauty **for more than 10 years.**

Each finish is specially formulated using custom-color technology to achieve pure, true-to-spec tones that stand out from standard offerings.

Premium-quality cabinets featuring stylish designs, available in Shaker and Slim Shaker styles. Built with solid wood frame structures for enhanced durability, using natural oak and birch veneers.

Our fully traceable industrial chain ensures sustainable and compliant products.

Performance Features

PlyShield™ Anti-Mold Core

Built with premium plywood doors featuring PlyShield™ Anti-Mold Core, engineered to withstand the demands of busy kitchens. The cross-laminated structure of the plywood provides exceptional dimensional stability, resisting warping even in humid environments.

With its enhanced moisture resistance, PlyShield™ Anti-Mold Core actively prevents mold and mildew growth from within, delivering reliable performance that outlasts standard materials.

Performance Features

Smooth Operation

Designed with soft-closing door hinges and full-extension undermount glides, our cabinetry ensures quiet operation, effortless access, and a smooth, refined experience built for everyday use.
